

I would like to express concern over the possible replacement of LPFM stations over FM translators such as 90.9 in our area. This station(K-LOVE) serves our area by providing music and information that can not be found on any other stations. The loss of this programming would affect the listeners who have grown to love and need the information and uplifting music. Such programming provides a valuable community service to individuals by providing a free connection to the ministries of K-LOVE.

Thank you for the opportuntiy to express my concerns.
